

Dear Friends and colleagues,

It is now more than a month that we are on the African roads without giving you much news. In the last month, we have travelled over 10216 km and visited schools in Portugal, Senegal, Cape Verde, Gambia, Guinea Bissau, and Guinea. All the times we were amazed by the children creativity and work. We are gathering our best efforts to have our website www.artinallofus.org updated and being able to share with you these experiences. For the next time, we will begin translating the poetries in English so that anybody may enjoy from it.

Today, we are happy also to announce you some news on the website:

-Our first travelogues at <http://www.artinallofus.org/travelogue.htm>

-Cape Verde Art Gallery at <http://www.artinallofus.org/countries/africa/Caboverde/Caboverde%20photo1.htm>

-Senegal Art Gallery at <http://www.artinallofus.org/countries/africa/Senegal/Senegal%20photo1.htm>

Some other hard figures:

-We have travelled over 10216 km in one month reaching country number 65

-Our slower route was Gabu (Guinea Bissau) - Boke (Guinea), a 250 km stretch done in 16 hours in a Peugeot 504 from the 70ties. Normally we can put upto 7-8 people. We were 16 including the children...

-our favourite definition of an island by Guinean 10 year old boy: "an island is where there is a house, some trees, peace and water around"

-our angel is still carrying about us. We have tried to steal from us twice, and our camera broke twice, but our angel manage to keep them and us alive

-The world is small: we met a 10 year old child in a school in Bissau, who was studying 2 years ago in the class of the school we visited 2 weeks ago in Cabo Verde.

I would like to seize the opportunity of this mailing to call on your help on our fundraising activities. Your broad contact list can be very useful to us. By spreading the word around, we can already create some new and interesting opportunities. You can find more on this topic at www.artinallofus.org/help.htm.

During the next 2 months we will be visiting the following countries of Africa. Any contact in those countries will be of great help for us:

Liberia
Burkina Faso
Mali
Ivory Coast
Ghana
Togo
Benin
Nigeria
Cameroon

We would like to send a special thanks to la Maison des Enfants du Monde and the Unicef from which we have received an outstanding help during the last weeks.

Greetings from Sierra Leone,

Anthony
