

Dear friends,

Our baby is born the 15th of September 2007 after 9 long months of pregnancy. He weighs about 557 MegaBytes, and his height about 510 artworks.

Both parents are more than happy and proud.

He wouldn't have seen the beautiful day light without the unbelievable work of his uncle Dennis Rodie (www.denniswashere.com). Without his passion, perseverance and patience our baby would not have been so healthy.

Just to remind you that his name is Art in All of Us and you can visit him at the usual address: www.artinallofus.org. Since its first launch last month, we have received over 40000 visitors.
